

2008 Heart of England & Saturday Night Fever RESULTS

THANK YOU!

Thank you so very much to everyone who made Future Cheer's 2008 Heart of England and Saturday Night Fever so much fun! It is a privilege to work with you, and we are delighted to provide a positive life experience for all! Thank you for flying with FUTURE CHEER!

HOW ARE GRAND CHAMPIONS SELECTED?

Criteria for Grand Champion awards include: Perfection of Routine, Creativity, Coverage of *allowable routine elements within a given level*, and overall appeal. In short, Grand Champion awards are intended to highlight team performances that are generally pushing the Cheer & Dance community forward with strong, safe, creative routines. There are many teams that have done this quite well, so it is never an easy decision!

Future Cheer recognizes that there are inherent differences in co-ed vs. all-girl teams, and there are differences in allowable skills per level (which can impact overall score). We also recognize that there are natural score range differences that occur between judging panels. Because Grand Champion candidates are often judged by different panels, it is necessary to combine panel assessments that consider all these factors for fairness to all teams, which means "highest score" does not necessarily indicate a Grand Champion winner. Each panel's top teams will be assessed against one another directly by both judging panels to determine the strongest overall performance within the given divisions for a Grand Champion Trophy. All variables are carefully considered and reviewed by video as necessary prior to final awards.

2008 Heart of England (Day 1)
